RESERACH EXPERIENCE

Chicago Human+AI Lab   August 2019 - Present
Research Assistant (Advisor: Prof. Chenhao Tan)   *Chicago, IL*

- Design interactive explanations of machine learning models and study how humans behave with the aid of different types of explanations
- Study how human and AI collaborate under the effect of distribution shift in various decision making tasks such as deceptive review detection, profession classification, and recidivism prediction.

Neural Polysynthetic Language Modeling
at the Sixth Frederick Jelinek Memorial Summer Workshop (JSALT)   June - August 2019
Research Intern   *Montréal, QC, Canada*

- Trained morpheme-aware RNN language models for polysynthetic languages.
- Converted language models to TensorFlow Lite and built back-end service on Android Simulator.
- Built mobile keyboards with predictive text logic using LatinIME open source package.
